DESCRIPTIVE GEOLOGY LOG
Terra Search Pty Ltd for Bowen Energy Ltd

		DRILL HOLE : BCRCZ001		
		Prospect: Bullseye Creek – Z	Date: 21/11/2012	Logged by: M T Young
From	To	Description		
0	5	Yellow – brown – grey, medium – coarse grained, partially oxidised (goethitic) quartz. Unconsolidated/float.		
5	14	White – light grey – pink, fine – coarse grained, partially oxidised lateritic quartz.		
14	16	Dark red – pink with minor yellow – orange through to dark grey, fine – medium grained, oxidised laterite with minor quartz. Haematitic and goethitic oxidation.		
16	36	White – light pink/grey, very fine grained, partially oxidised lateritic clay. BOPO at 36m.		
36	45	Dark grey, very fine grained graphite clay.		
45	49	Dark grey, very fine grained consolidated graphite.		
49	52	Dark grey, very fine grained, partially consolidated graphite and graphite clay.		
52	54	Grey – dark grey, very fine grained graphite clay.		
54	58	Dark grey, very fine grained, largely consolidated graphite and minor graphite clay.		
58	70	Dark grey, very fine grained graphite clay.		
70	71	Grey, very fine grained graphite and graphite clay.		
71	72	Grey, very fine grained consolidated graphite and minor pyrite as clusters and joint infill.		
72	78	Dark grey – grey, very fine grained graphite clay.		
78	80	Silvery grey, very fine grained graphite and graphite clay.		
80	82	Grey, very fine grained graphite clay.		
82	95	Dark grey, very fine grained consolidated graphite. Minor pyrite throughout seen as clusters, joint infill and veinlets. 95m E.O.H.
